HIGHLIGHTS

Fe 550 Grade

The best possible variant made to build futuristic structures

Unique 3X Design

Rib on Rib feature, a product innovation which enhances the Steel and Cement bonding.

Maximum Savings

Due to the 3X design, use 9-12% lesser steel and save on your cost of construction

Ultra Safe

The steel is designed to achieve good UTS/YS Ratio that gives highest elongation. This makes the steel Earth Quake Resistant due to its superior impact absorption.

Higher Tensile Strength

Withstands stress like no other bar
