HIGHLIGHTS

Fe 550 Grade

The best possible
variant made to
build futuristic
structures

Unique 3X Design

Rib on Rib feature, a
product innovation which
enhances the Steel and
Cement bonding.

Maximum Savings

Due to the 3X design,
use 9-12% lesser steel
and save on your cost
of construction

Ultra Safe

The steel is designed to achieve good UTS/
VS Ratio that gives highest elongation.
This makes the steel Earthquake Resistant
due to its superior impact absorption.

Higher Tensile Strength

Withstands stress
like no other bar.
