## HIGHLIGHTS

### Fe 550 Grade

The best possible  
variant made to  
build futuristic  
structures

### Unique 3X Design

Rib on Rib feature, a  
product innovation which  
enhances the Steel and  
Cement bonding.

### Maximum Savings

Due to the 3X design,  
use 9-12% lesser steel  
and save on your cost  
of construction

### Ultra Safe

The steel is designed to achieve good UTS/  
VS Ratio that gives highest elongation.  
This makes the steel Earthquake Resistant  
due to its superior impact absorption.

### Higher Tensile Strength

Withstands stress  
like no other bar.
